

Scanning a document to .pdf file

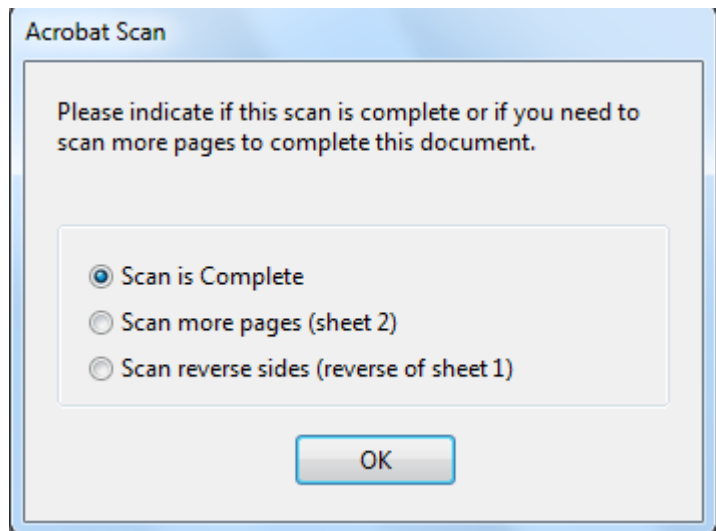

Open Adobe Acrobat

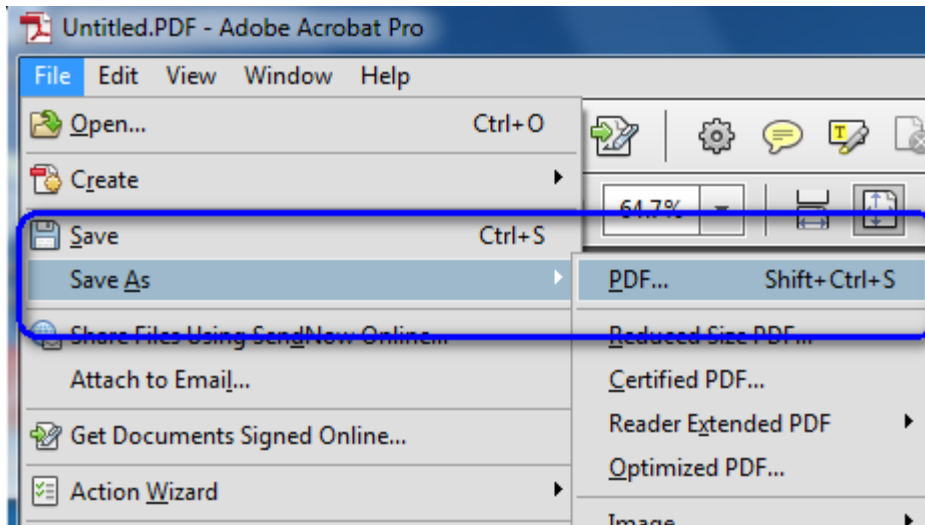

Click **Create>PDF from Scanner** and select the option for your scan

If you would like to add pages select **Scan more pages** or click **OK** to complete scan.

To save your PDF, select File>Save As > PDF

Now Save your scan using “Save AS...” under the file menu

When saving your scan:

Select Desktop for location so you can access it located on the left

Name your document and click Save
